Office 365 - Outlook Setup

Follow this guide to setup Outlook after migrating to the UITS Office 365 mail service

Step-by-step guide

1. Go to the start menu (Click Windows Key) and type "Control" - select Control Panel.

2. If Control Panel looks like this, Click on top right corner "View By" and select either "Small icons" or "Large icons" - otherwise proceed to step 3

3. Double Click on "Mail (32 bit)"
4. Click on "Show Profiles..."

5. Click on "Add..."

6. Type in a Name for the profile and click OK

7. Delete your Business email and type in your UConn E-mail Address (typically FirstName.LastName@uconn.edu) and type in your NetID password in both password fields, then click Next
7. Please refer to phonebook.uconn.edu, if you are unsure what your @uconn.edu address is.

Outlook can automatically configure many email accounts.

- Your Name: Jonathon Husky
  - Example: Ellen Adams
- E-mail Address: Jonathon.Husky@uconn.edu
  - Example: ellen@contoso.com
- Password: [Enter password]
  - Type the password your internet service provider has given you.
- ReType Password: [Enter password]

8. Outlook will begin searching for your mailbox on the office 365 Environment - this process takes approximately 1-5 minutes.
9. When Complete, Choose “Finish”

On the Mail Settings window - choose “Always use this profile” and select the newly created mail profile.

10. Click “OK”
12. Launch Outlook - the initial launch should take approximately 1-2 minutes to Open

13. Your mailbox is ready to use
