You must set up an account before using Mediasite. Navigate to: https://mediasite.dl.uconn.edu/mediasite/mymediasite and login with your NetID and password. You'll be prompted to enter your name. After you logon you'll receive an email to validate your account/profile. Click on the link in your email. This will open a window called System Overview, which you can close.

The web portal is where you can view and edit your recordings. This is also where you will be able to copy the links for any recording and post them in HuskyCT.
