Opting In to Google Core Services

Faculty and staff can opt in to Core services and public services.

Opting In to Google Core Services

1. Visit google.uconn.edu
2. Click the Create Faculty/Staff Account button.
3. Log in with your NetID and NetID password.
4. Click the I want to opt in! button to create your account.
5. Review the terms of service, scroll to the bottom of the page, and click the Accept button.
6. Create a password for your UConn GApps account. This will be used when you log in to any Google application with your UConn credentials.
7. Click the Submit Passwords button.
8. Upon completion, a message will be displayed saying, "Congratulations, your new Gmail account has been created."

Note

You can use your current NetID password format for your GApps password. The password should meet the GApps complexity requirements.

Opting In to Google Public Services

1. Navigate to google.uconn.edu
2. Click the Opt-in to Public Services button.
3. If prompted, enter your NetID and NetID password.
4. Click the I want to opt in! button to enable your public services account.
5. Review the terms of service, scroll to the bottom of the page, and click the Accept button.
6. Upon completion, a message displays: "Your new email address is now enrolled in Public Services."
