Accounts and NetID

All faculty, staff, students, and affiliates receive a NetID, your unique UConn identifier, when they join the University. Your NetID is the cornerstone for your digital identity and is necessary to authenticate into most online services at UConn, including Core-CT. The University provides you with the tools to protect your NetID (i.e., manage passwords and enable two-factor authentication) and modify how your name is published.

Core-CT
- Updating Your Personal Information as an Employee

NetID
- Activating Your NetID
- Changing Your NetID Password
- Finding Your NetID
- Referencing Your NetID Account Information
- Requesting a NetIDadmin Account
- Resetting Your NetID Password
- Setting up NetID Password Recovery Options
- Synchronizing Your NetID Password (Password Test)

Preferred Name and Personal Name
- Changing my UConn Email Address
- Changing Your Display Name in UConn Directories
- Changing Your UConn Email Address
- Deleting a Personal Name

Two-Factor Authentication
- 2FA for International Travelers
- Adding 2FA to My Web Application
- Authenticating Using an SMS Text Message
- Authenticating Using a Passcode
- Authenticating via Phone Call
- Authenticating via Push Notification (Duo Mobile App)
- Authentication Method Overview
- Generating an Alternative Passcode for Forgotten/Lost Devices
- Logging In with 2FA
- Purchasing and Registering a Hardware Token for the 2FA Service
- Reactivating the Duo Mobile App with New Phone (Same Phone Number)
- Setting Up a Backup Device for 2FA
- Setting Up a Landline for 2FA
- Setting Up a Mobile Phone for 2FA
- Setting Up a Tablet for 2FA
