Classroom Technology

All generally scheduled classrooms are equipped with standard classroom technology that is maintained and refreshed by ITS. These classrooms are controlled by a touch panel on the teaching station, which gives the user full control over all audiovisual features in the classroom.

- Adding Remote Viewers to Your Class or Conference and Allowing Interaction
- Allowing Remote Participants to View a Class or Conference Without Interaction
- Connecting a Remote Presenter to Your Class or Conference
- Connecting Mac to an External Display (Classroom AV System)
- Connecting Windows to a Projector
- Playing a DVD or Blu-ray Disc in High Tech Classrooms
- Requesting Microphones for Classroom Use
- What software is available on the classroom computer
- Recording and Streaming a Presentation
