How to Create Smart Views

This article is for faculty and staff seeking information regarding how to create Smart Views. SmartViews is a tool that you can use to break up your Grade Center into smaller chunks. This will allow you to better manage a large number of students.

Steps involved:

1. Go to the grade center in the course you want to create smart views in
2. Click on the Manage drop down
3. Click Smart Views
4. Select Create Smart View
5. Provide a Name for the smart view (i.e. the number of the lab or discussion section: 'Section 001 or 001L or 001D)

BE SURE to check Add as Favorite so the smart view is available as a filter option.

6. Select Custom as the Type of View
7. Select the drop down under User Criteria and select Child Course ID.
8. Set the Condition of the filter to Contains and fill in the Value with the specific number for that section
9. Review and select Submit
10. BE SURE to check Add as Favorite so the smart view is available as a filter option.
11. Navigate back to the Grade Center drop-down menu. The newly created smart view is now select-able.
