Finding the IP Address on Windows 8

Students, faculty, and staff can find their IP address in Windows 8, which is needed for certain programs.

Using Command Prompt

1. Hover over the bottom left corner of the screen and click on the Start Menu.
2. At the start menu screen, type cmd.
3. Right click the Command Prompt.
4. Click on Run as Administrator on the bottom of the screen.
5. Command Prompt will open. Type out ipconfig and press the Enter key.
6. Locate your IPv4 Address, this is your IP address.

Using Network and Sharing Center

1. Hovering in the top right corner of the screen and the charms menu shows up.
2. Click Settings.
3. Click Control Panel.
4. Click Network and Internet.
5. Click Network and Sharing Center.
6. Click change adapter settings on the right.
7. Right click your network adapter and click status.
8. Click details.
9. The IP Address will be listed next to IPv4 Address.
