Connecting Mac to an External Display (Classroom AV System)

1. Click on the Apple Menu in the top left corner of your screen.

2. Select System Preferences from the drop-down menu, then click Displays.

3. Select the Arrangement Tab

4. Arrange your displays:
   a. To arrange your displays, drag one of the displays where you want it. A red border appears around your display as you arrange it.
5. To mirror your display click the Mirror Display check box in the lower left corner. Mirroring the displays will show the same apps and windows on all connected displays.
