HuskyPrint

HuskyPrint is a computer printing service with over 30 printers located on all six campuses. It was designed for students but is open to the entire UConn community. If you have a UConn OneCard, you pay for print jobs with HuskyBucks. If you do not have a UConn ID, you can purchase a print card.

You can print two ways: upload the document to MyHusky Print (a portal that allows users to upload documents to the queue and manage pending print jobs) or email documents to HuskyPrint@uconn.edu.
